PastureLine

### 4mm "No Wire" Polymer Horse Fence
1247 ft. & 2492 ft. Spool
Available in White or Black

Revolutionary Fencing Providing Visibility
### Durable & Aesthetically Appealing

Vinyl Post & Rail

Lifetime Warranty

Low Maintenance & Durable
Enhances the Appearance & Value
Of Your Property

Rail Fence Connector

Available in Pale Green or Black
High Density Polyethylene
Withstands a weight or force of 1950 lbs.
Conforms to both the curve of the post & rail.
Fits 3-4" rails & 4-6" posts

FLEX FENCE 660 ft. Roll 4" or 5" Wide with 3 Wires

RACE LINE 1320 ft. roll 5/16" Diameter

All Products Available in White, Brown or Black

4" Flex Fence Bracket
5" Flex Fence Bracket

Allows flex rails to move when something comes in contact with it

4" End Tensioner
5" End Tensioner

Used to start & tighten Flex fence horse fence

4" Flex Fence Splice Buckle

Connects two ends of Flex rail

5" Flex Fence Splice Buckle

easily & without stripping wires

4" Flex Fence End Buckle
5" Flex Fence End Buckle

Used to terminate a line of Flex rail at the post

SHOCK LINE 1320 ft. roll
5/16" Dia

Highly Conductive Carbon Compound, High Tensile Wire, Long Life, UV Rated Non-Conductive Medium Density Polyethylene.

PLEASE REFER TO PAGE 12 FOR RECOMMENDED LINE INSULATOR: 44 1396. REFER TO PAGE 3 FOR MORE ACCESSORIES

Pinlock Corner Collar 10/pack
White

Fits perfectly on to any wood post to make insulating around corners a breeze. Durable UV-resistant plastic. Collar holds most sizes of wire including large dia. rope
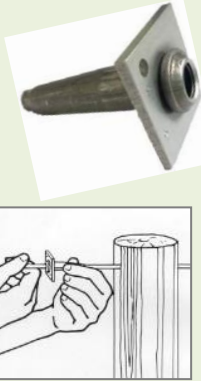

WIRE, PASTURELINE & HORSERAIL PRODUCT ACCESSORIES

QUICK-END

SIZE 5064
(8-11 ga. &
PastureLine)

SIZE 5062
(10-11 ga,)

SIZE 5058
(12-13 ga. &
Raceline)

QUICK-SPLICE

SIZE 5065
(8-11 ga. &
PastureLine)

SIZE 5059
(12-13 ga. &
Raceline)

SIZE 5057
(14-16 ga.)

WIRE GRIPPER
Grips PastureLine &
all other gauges of wire.
Use with a come-along.

WIRE TWISTER
Make neat spiral wraps

WIRE TWISTING TOOL

TORQ GRIPPLE TENSION TOOL
Ideal for all Gripples.
Lightweight &
compact.
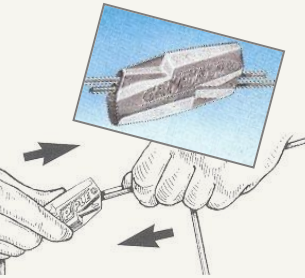

GRIPPLES
SMALL
14-19 ga.
MEDIUM
10-14 ga.
BARBED
12.5 ga.
LARGE
7.5-10 ga. & PastureLine

CONTRACTOR GRIPPLE TENSION TOOL
Metal construction is
strong, robust & suitable
for everyday use.

IN-LINE STRAINER
Use to tension fence wire.

INSULATED IN-LINE STRAINER
Ideal for tensioning
Hotcote & Wire.

CRANK HANDLE
Use with In-line Strainers
to increase tension.

CRIMP SLEEVE LONG GRITTED
Use with12.5 ga. High Tensile Wire.
(100/Jar)

CRIMP TOOL
4 Hole model. Use
with 9-16 ga. wire.

FENCE PLIERS 10"

TENSION CURVE TOOL
Bends wire to add
Tension.

EASY-LOOP CONNECTOR
CWTW   White
CWTBR Brown
CWTBL Black
12-13 ga., Raceline & Shockline

Simple way to
terminate coated
wire or to build
brace assemblies.

KIWI LATCH   Non Spring
Incl. Staple
Simple to use – one hand operation

TEMPERATURE EQUALISATION SPRING
Eases strain on wire
& corner posts.

WEDGE - LOC

Bracing Hardware for T-Posts. Turns T-Posts into Braces.
For Permanent & Temporary Fences. Installs In Minutes!
Fits all T-Posts! Quick & Easy To Use!

AHHH…John & Lesley said with Wedge-Loc Bracing Hardware & no holes to dig, I'd have time for more important things…They were right!

COLLAR   **90º SOCKET**   **60º SOCKET**   **WEDGE**

Corner/In-line Brace Kit	(Incl. – 3 Collars, 3 Wedges & 4 60º Sockets)	**Part #205**
Single Diagonal Brace Kit	(Incl. – 2 Collars, 2 Wedges & 2 60º Sockets)	**Part #208**
Single Horizontal Brace Kit	(Incl. – 2 Collars, 2 Wedges & 2 90º Sockets)	**Part #209**
Gate Hinge Kit	(Incl. – 1 Pair of Gate Hinges)	**Part #115**

(Can be used to hang a gate on a T-Post, Round Pipe Post or a Wooden Post)

PART #205   **PART #208**   **PART #209**   **Poly Tape Install Shown Below**

60° Socket
T-Post brace
measure one T-Post brace length *minus* 12" - 16"

60° Socket
T-Post brace
measure one T-Post brace length *minus* 12" - 16"

90° Socket
T-Post brace
measure one T-Post brace length *plus* 1/2"

ELECTRIC FENCE CONTROLLERS

DUAL-PURPOSE & UNIGIZER LOW IMPEDANCE
12 V Battery, 110 V Plug In & Solar Compatible
(Battery & Solar Panel not Included)
(Power adaptor & battery lead set are included)

Solar Option

CORRAL DUAL-PURPOSE		Output Max (J)
NA100	35 Kms	1.0 J
NA300	95 Kms	3.0 J

PATRIOT DUAL-PURPOSE		
P5	15 Miles	0.5 J
P10	30 Miles	1.0 J

SPEEDRITE UNIGIZER		
1000	10 Miles	1.0 J
3000	30 Miles	3.0 J
6000	60 Miles	6.0 J
6000 with remote	60 Miles	6.0 J

PATRIOT 110v AC Low Impedance		
PE5	5 Mile	0.2 J
PE10	10 Mile	0.3 J

PORTABLE LOW IMPEDANCE
3-options: 4 - D-Cells batteries internally or 6, 9 or 12 V battery externally
(Batteries not included)

AN20	0.6 Miles	0.04 J
AN90	1.25 Miles	0.12 J

(Optional tread in ground rod stand)

PBTS

SOLAR

SG80 PATRIOT	3 Miles	0.08 J

(6 volt rechargeable battery included)

S500 SPEEDRITE	5 Miles	0.50 J

(Includes internal rechargeable 12v gel cell battery))

The **CORRAL Dual Purpose** uses the latest electric fencing technology. This simple yet versatile unit can be used for permanent fencing with the 110V mains adaptor or portable fencing with a 12V battery (includes stainless steel clamps for 12V system) or solar option. LED indicator lets you know if your energizer is working.

SPEEDRITE UNIGIZERS give you a versatile 3-in-1 solution to manage your electric fence system. You have the flexibility to choose from either 110v, battery or solar energy to power your electric fence **– ALL-IN-ONE** unit. The 3-in-1 capability allows the Unigizer to be used for all types of fence systems. Indicator lights, Day/Night Sensor, Large Terminals, Low Impedance, Versatile Mounting Options, Adjustable power & pulse speeds

The portable **AN90** provides a practical solution for strip grazing and small electric fence systems. Clips directly onto fence wire for added convenience, on/off switch, fast and slow options and simple set up. Optional tread-in ground rod stand.

SOLAR Low Impedance
Requires minimal sunlight Indicator light, Battery Saver, Rugged Design, High Output Voltage, 5 watt solar panel, T-Post and wood Post mounting options, ON/OFF switch

LOW IMPEDANCE models utilize special circuitry & transformers to maintain high energy levels on the fence. Effective in moderate to heavy weed conditions & are ideal for longer, multi-strand poly wire, tape, rope or high tensile fence systems. Use for all animals including predators.

ELECTRIC FENCE GROUNDING SYSTEM
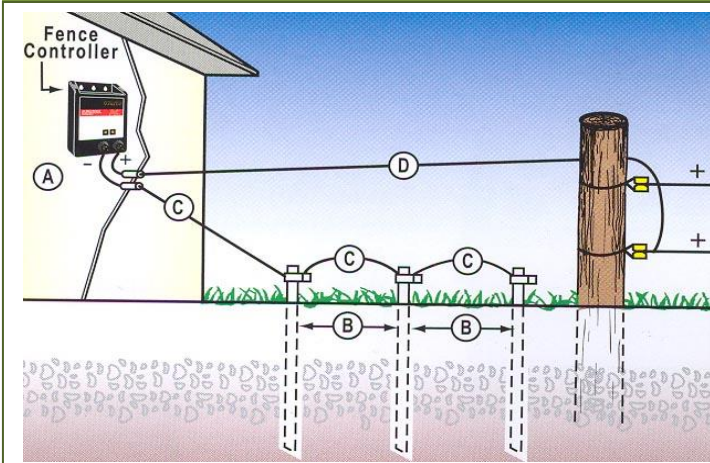

Why Is Grounding Important?

If the ground system is insufficient, electricity cannot find a path to the fencer and little or no shock is given. An animal provides this path when it touches the fence wire and the earth simultaneously. The electricity then passes through the animal into the soil and back to the ground rods, which are connected to the ground terminal of the fence controller. Only then is the circuit completed and the animal receives an electrical shock.

A Install the controller in a building or weatherproof area. Solar fence controllers should be mounted outside, facing the equator for maximum sun exposure.

B Drive three galvanized ground rods into moist soil about 10' apart and at least 50' from other electrical grounds. If the soil is dry or subject to freezing part of the year, additional ground rods spaced 10' apart may be needed.

C Connect the "ground" terminal on the fence controller to the ground rods with insulated wire and ground rod clamps.

D Connect the "fence" terminal on the controller to the fence wire using insulated wire.

Detailed installation and grounding instructions are included with every electric fence controller.

GROUND ROD CLAMP

5' GROUND ROD

5' GROUND ROD & CLAMP
Galvanized Ground Rods and Clamps

INSULATED CONNECTION CABLE
Ideal lead out cable to fence, linking ground rods and for under gateways

25 METER ROLL (82 FT)

50 METER ROLL (164 FT)

100 METER ROLL (328 FT)

ELECTRIC FENCE ACCESSSORIES

JOINT CLAMP
Used to connect wire or insulated Connection cable into fence. (up to 2.5mm dia) Also available in Stainless Steel

LIGHTNING PROTECTION 449602/011
Assembles onto fence post. Protects fence controller from overvoltage by lightning contact with the fence system. Channels the overvoltage directly into the ground.

WARNING SIGN
Made of durable plastic
WARNING FLAG (10/bag)
Yellow   FWF10
White   WFWF10

CUTOFF SWITCH COS1
Turns electric fence on & off at convenient locations.
ON/OFF SWITCH 44607/011
Eliminates turning off the whole system & enables you to work on a fence area.

CROCODILE CLIP 44606/011
Metal eye, 100 cm of lead, stainless steel.

CROCODILE 2 CLIP 441608/011
Ideal on/off device. 60 cm of lead, stainless steel.

INSUL TUBE

Ideal for covering 12.5 gauge brace wire & also to sleeve through or attach to post to insulate poly wires, poly ropes and Shock line wire.

ELECTRIC FENCE ACCESSORIES CON'T.

THE ORIGINAL FAULT FINDER

POWER PROBE II
The Ultimate Diagnostic Tool For Electric Fence

Waterproof & impact resistant case.
Low battery indicator. Incl. 9V Battery.
Clearly indicates the direction of the fault &
leads you quickly to it. No wires or clips
means no tangles or shocks. Simple to use -
one touch operation. 12 Month Guarantee.

FENCE TESTER
6 lights indicate voltage levels from
1000V-10,000V.
No batteries required.

FENCELINE TESTER 44669
LED low voltage & low battery
indicator. Incl. standard 9V battery.
Reads up to 8000V. No ground probe.

FENCE CHECKER 441227
Visual & audible signals when fence has a voltage.

FENCE ALERT   F1A
Starts working when your fence stops.

GUARDIAN NIGHT LIGHT 2221
Flashes rapidly when fence is in good condition.
Flash frequency slows as conditions worsen.
Highly visible at night up to 1000 ft. or more

KEY CHAIN FENCE BEEPER
Simply Beeps when it is close to a live electric fence

SPEEDRITE CORRAL KIT
Ideal for trail riding, horse shows, etc.
Quick & easy setup. Create a larger
temporary corral with this portable
electric fence kit.

- Incudes 12 tread-in posts
- 660' of ½" poly tape
- AN20 fence charger
- Tread-in post battery stand
  that doubles as ground rod
- No-kick gate handle & carrying case

SUPER REEL W/SUPPORT   44270
Hard wearing plastic reel (replaceable) w/
locking pin. Complete with metal support &
harness for fence installation. Capacity for
about 1000m poly wire & 600m poly tape.

COMPACT REEL   44296
Impact-proof plastic. Special eye for well
directed wire routing. Heavy-steel crank
arm. Galvanized carry handle for manual
use or for clipping into portable reel system.
Locking ratchet. Capacity for up to 600m
poly wire & 200m poly tape.

GEARED REEL 3:1   44280
Save time by 3-way transmission. Impact
proof plastic. Special eye for well-directed
wire routing. Heavy-steel crank arm.
Capacity for up to 600m poly wire & 200m poly tape.

JUMBO REEL W/SUPPORT   441270
Extra wide design with locking pin.
Capacity for about 2000m poly wire
or 1200m tape

SPARE REEL   44271
Changeable reel for Super Reel 44270

EURO REEL   441040
High quality compact reel w/locking
ratchet. Complete with mounting device
for hanging on fence wire. Capacity for
up to 500m poly wire & 200m poly tape.

SPARE REEL
For Euro Reel

PORTABLE POSTS FOR ELECTRIC FENCE

PLASTIC POST WITH STEP-IN STIRRUP

5 ft.   WHITE   444180   5/pkg
                            20/box

Easily driven into the ground because the stirrup is positioned directly above the spike.
Accommodates all common tapes, ropes & polywires. Fibreglass reinforced. Galvanized Spike.

CLASSIC TREAD IN PLASTIC POST

4 ft.   WHITE   443492   5/pkg

Moulded in insulators for Poly Strands, Ropes & up to 1½" Poly Tape.
Reinforced for increased stability. Galvanized Spike.
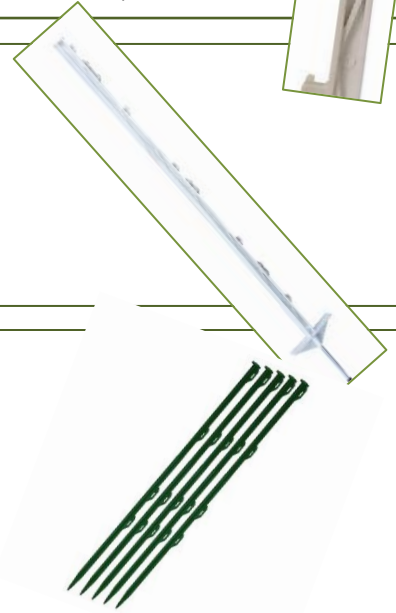

PET & GARDEN POST

28 ½" GREEN   5/pkg

4 Preset Clips

FIBREGLASS POSTS 3/8"

4 ft   WHITE   20/bdle
5 ft   WHITE   20/bdlle
(Insulator not included)

John's Fencing Tip: For Semi Permanent fencing use T-Posts or Wood Posts at your Gateways, Corners, Starts & Finishes & any of the above **Portable Posts** in between for a simple & economical install!

POLY ROPE INSTALL   POLY TAPE INSTALL

POLY STRANDS & ROPE

High Quality * High Strength * More Twist * High Conductivity * High Visibility * Ultra Violet Stabilized

Only high quality virgin high density polyethylene & stainless steel wire is used to produce this long lasting electric fence wire. Ideal for strip or rotational grazing & used on permanent fences as fence protection.

POLY SHOCK * Classic 2.5mm * 6 Stainless Steel Conductors

200m (656')	Brown	441949
250m (820')	White	449114
500m (1640')	White	449112

POLY ROPE * 6mm * 6 Conductors

200m (656')	White with Stainless Steel Conductors
200m (656')	White/Red TRI-CON Conductors

Drop Handles   Black   442366   2/pkg

Easy & Safe unrolling of conductive material – suitable for all spool sizes

Please see page 11 & 12 for a wide variety of insulators & accessories for Poly Strands & Rope
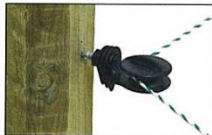

Super Corner Screw In   **Ring Insulator for Rope**   **Get a stunning installation by using simple to install accessories!**   **Gate Handle Insulator & Quick Rope/ Polywire Connector**   **Gate Handle with Quick Rope/ Polywire Connector**

Electric Bungy Gate Option for Poly Strand & Rope Install
Designed to stay off the ground while the gate is open!

Eliminates getting shocked while going through gateways!

Materials Required:

PLEASE REFER TO DIAGRAM AT BOTTOM OF PAGE 10

(a)   *Electric Bungy Rope – stretches up to double its original length.)*
(b)   *Tube Post or Ring Insulator with Metric Screw – Recommend 2-4 depending on length of gate. (Please see Page 12)*
(c & d) *2 Gate Handle Insulators or 1 Vario Gate Handle Insulator (w/2 Rope Connectors would be required for either insulator). (Please see Page11)*
(e)   *1 Heavy Duty Gate Handle w/rope connector. (Please see Page 11)*
(f)   *1 Rope Connector. (Please see Page 11)*

ELECTRIC BUNGY ROPE * 7mm * 3 SS Conductors* Can be extended to twice its original length
Great for Gate Crossings

25m	(82')	White with Black tracer	441890
50m	(164')	White with Black tracer	441891

POLY TAPES

High Quality * High Strength * High Conductivity * High Visibility * Ultra Violet Stabilized

Excellent conductivity & durability. Thick polyethylene fibres for strength, quality & longevity.

40mm Wide	8 Stainless Steel Conductors	200m (656')	White
40mm Wide	11 TRICON Conductors *Highly Conductive*	200m (656')	White/Red
40mm Wide	13 Stainless Steel Conductors	200m (656')	Black

Please see page 11&13 for a wide variety of insulators & accessories for Poly Tape.

Euro Clamp   **Maxi Tape Wood Post Screw-In**   **Gate Buckle w/Hole**   **Litzclip Handle Connector**

"We have the expertise & products to help you get your install complete & right the 1ˢᵗ time!"

Get a stunning installation by using simple to install accessories!
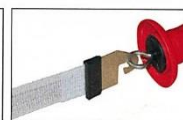

Electric Bungy Gate Option for Poly Tape Install
Designed to stay off the ground while the gate is open!

Eliminates getting shocked while going through gateways!

Materials Required:

(a)   *Electric Bungy Rope – stretches to more than double its original length. (Please see Page 9)*

(b)   *Tube Post or Ring Insulator with Metric Screw – Recommend 2-4 depending on length of gate. (Please see Page 12)*

(c & d)   *2 Gate Buckle with Hole and 2 Euro Clamps. (Please see Page 11 & 13)*

(e)   *1 Heavy Duty Gate Handle with Rope Connector. (Please see Page 11)*

(f)   *1 Rope Connector. (Please see Page 11)*
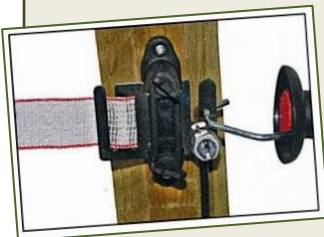

TIP: Bring Insulated Connection Cable from Fence Controller into Gate Buckle with Hole by using a Joint Clamp

ELECTRIC NETS

Double prong step-in posts are built into the netting to provide stability & ease of installation. Each post has a moulded top enabling the post to be easily moved to a new position in the net when necessary. All nets include repair kit & corner stakes. All nets are manufactured with graduated vertical spacing, which means the horizontal lines are spaced tighter at the bottom & farther apart at the top to provide extra security & superior predator control. Stainless steel conductors for durability. 1-non electrified bottom twine.
